Givzey - Compliance

Section 508

Our products meet the requirements of Section 508 of the US Rehabilitation Act of 1973 to enable people with impairments or disabilities to fully use technology provided by the federal government.

ADA

The Americans with Disabilities Act of 1990 (ADA), enshrined in law the right of individuals with disabilities to enjoy products and services free from discrimination. All of our digital and online products are fully functional for all users, and meet the requirements of the ADA.

WCAG 2.1

The Web Content Accessibility Guidelines (WCAG), created by the World Wide Web Consortium (W3C) set out the industry standards for ensuring that web content is open and accessible for all users. Givzey is WCAG 2.1 AA compliant. We scan our code base using [WAVE](#) scans and follow up with human usability testing.

Accessibility Compliance in Other Regions

As a global company with customers and users in over 50 countries worldwide, we similarly follow other local standards such as the European Accessibility Act (EU), Accessibility Canada Act (Canada) and the Equality Act of the UK.

Accessible Functionality

To make our products accessible to all, we support alternative methods of navigation such as screen readers, our interfaces are fully configurable including alternative color and display choices for the visually impaired.

Data Hosting Environments

Givzey uses third-party providers for its physical hosting and data services. Givzey partners with the world's leading cloud providers, AWS, Google Cloud, Stripe and Heroku, who are proven leaders in the field for availability, security and compliance.

AWS, Stripe and Heroku are fully accredited and certified to stringent global standards.

For more information on the accreditation and certification of AWS, please visit the Compliance Programs [Here](#)

For more information on the accreditation and certification of Salesforce Heroku, please visit the Heroku and Compliance page [Here](#).

For more information on the accreditation and certification of Stripe, please visit the Stripe and Compliance page [Here](#).
