

Givzey - Digital Accessibility

Based on VPAT Version 2.4, WCAG 2.x, Revised Section 508

At Givzey, we take the needs of our users very seriously. We want to ensure a consistent and positive experience for all users, regardless of abilities. We take every effort to ensure that all users are able to experience the full value of Givzey.

Accessibility concerns are addressed differently between web, mobile, and email clients. With the web, we have more control over accommodations that can be provided to users and have taken the appropriate measures to meet our standards. On mobile devices and in email clients, users and vendors must often rely on the policies and design principles of the device manufacturer. Where allowed, we take the exact same steps on mobile as we do for the web.

Below we address accessibility information for Givzey, and what Givzey has implemented to meet our accessibility standards. Inquiries on accessibility should be addressed to hello@Givzey.com care of the Chief Technology Officer.
